

THE VILLAGE AT CASTLE PINES APPROVED PLANT LIST

Revised: August 2025

The Village at Castle Pines is a covenant-controlled community. The covenants are provided in the Amended and Restated Castle Pines Declaration and Agreement Creating Covenants, Conditions, Restrictions and Easements (a copy can be obtained on the Village website at www.thevillageatcastlepines.com or at the Homes Association Office). The covenants created the Design Review Committee which is responsible to review and approve all improvements in the Village. Page 23 of the covenants state, “No work of improvement, grading, excavation, landscaping, tree or shrub planting or removal shall be undertaken on any Lot or Lots without the prior approval of the Design Review Committee” which is responsible to review and approve the homeowner’s detailed plan specifying the proposed improvements.

It is the intent of the Landscape Standards for the Village to unify the newly built environment with that of the original natural setting and remaining undisturbed Village setting. The overall objective is to establish harmony between native and introduced plant materials that not only thrive in the Village environment, but also enhance the landscape experience in the Village. Attention must be given to the use of plants that integrate the landscape from house to house and to the original natural environment. Plantings along the public streets, common areas, and open space frontages visible to the public must be limited to native species originally found in the existing landscape, and to a lesser degree, non-native plants specifically approved in the Landscape Standards for these applications noted as “transitional” plants in the Approved Plant List. As one drives through the Village along the most-traveled roads, the appearance of the landscape should be one of a cohesive and consistent ‘natural elegance’, lined with irrigated short grasses that blend into the more natural grasses and native plants in the common open areas or into the approved landscapes on private property.

Site planning and location of new homes must be designed to preserve native plants and privacy. Wildlife corridors are provided to allow the deer, elk and other animals to roam through the Village relatively undisturbed as they have for centuries. **Landscapes should also preserve the appearance of the native environment.** Plants are to be of substantial size and quality so that they establish a cohesive landscape that immediately contributes to the Village as a whole. Plant sizes noted below are minimums:

Plant Type	Minimum Size Required
Larger Deciduous Trees	2 ½ - 3 inch caliper
Smaller Deciduous Trees	6-8 foot height, B&B, if located adjacent to public streets, open spaces, common areas and golf courses
Evergreen Trees	12+ foot height adjacent to public streets, open spaces, common areas and golf courses. 8+ feet in other locations
Deciduous Shrubs	2/3 of total amount in 5-gallon containers 1/3 total amount B&B if located adjacent to public streets, open spaces, common areas and golf courses
Evergreen Shrubs	5-gallon containers
Perennials and Groundcovers	All sizes permitted
Ornamental Grasses	1-gallon containers
Vines	1-gallon containers

LARGER DECIDUOUS TREES

COMMON NAME	NOTES	SCIENTIFIC NAME	HEIGHT/SPREAD	COMMENTS
Native Thin-leaf Alder	N W	<i>Alnus incana tenuifolia</i>	20-30' x 20'	Wetter areas only
Lanceleaf Cottonwood	N W	<i>Populus acuminata</i>	40-60' x 25'	For use in major drainage-ways
Swamp White Oak		<i>Quercus bicolor</i>	40-50' x 30'	Difficult to transplant and/or establish - planting advice helpful
Burr Oak		<i>Quercus macrocarpa</i>	60'+ x 40'+	Difficult to transplant and/or establish - planting advice helpful
Northern Red Oak		<i>Quercus robur</i>	40-50' x 30'+	Most difficult to transplant and/or establish - planting advice helpful
English Oak		<i>Quercus rubra</i>	50-60' x 30'+	More difficult to transplant - prefers a protected area - planting advice helpful
Quaking Aspen	N W	<i>Populus tremuloides</i>	30-40' x 20-25'	Requires ample moisture. Recommend nursery, not wild-harvested stock; subject to numerous insect and disease problems, short lived

SMALLER DECIDUOUS TREES

COMMON NAME	NOTES	SCIENTIFIC NAME	HEIGHT/SPREAD	COMMENTS
Ginnala (Amur) Maple	X	<i>Acer ginnala</i>	20-25' x 20'	Transitional *
Rocky Mountain Maple	N	<i>Acer glabrum</i>	15-30' x 20'	Difficult to transplant
Wasatch/Bigtooth Maple	N	<i>Acer grandidentatum</i>	15-30' x 15-20'	
Tatarian Maple - Varieties		<i>Acer tataricum</i>	20-25' x 15-20'	Similar to Ginnala Maple – Transitional *
Saskatoon Serviceberry	N	<i>Amelanchier alnifolia</i>	10-15' x 10'	Does best in protected areas; shade tolerant - Transitional *
Shadblow Serviceberry		<i>Amelanchier canadensis</i>	15-20' x 15'	Similar to above - Transitional *
Serviceberry		<i>A. grandiflora</i>	Varies	
Colorado River Birch	N W	<i>Betula occidentalis(fontinalis)</i>	20-30' x 20'	Multi-stem shrubby tree for wet, protected areas - Transitional *
Thornless Cockspur Hawthorn		<i>Crataegus crus-gallinermis</i>	20' x 15'+	Transitional *
Washington Hawthorn		<i>Crataegus phaenopyrum</i>	20-30' x 20'	Very thorny, spreads with age
Native Hawthorn	N	<i>Crataegus succulenta, et al</i>	8-15' x 8'+	Transitional *
Winter King Hawthorn		<i>Crataegus viridis 'Winter King'</i>	15' x 15'	
Crusader Hawthorn		<i>Crataegus 'crusader'</i>	20' x20'	

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

Russian Hawthorn	D	<i>Crataegus ambigua</i>	20' x 20'	Refer to PlantSelect.org
American Plum	N	<i>Prunus americana</i>	15-20' x 15-20'	Prone to storm damage & insect pests - Transitional *
Native Chokecherry	N	<i>Prunus melanocarpa (virginiana)</i>	15-25' x 15 - 20'	Irregular shrubby tree; subject to insect pests (red leafed varieties-newport, cistina, Schubert-not permitted) - Transitional *
Gambel Oak (Scrub Oak)	N X	<i>Quercus gambelii</i>	10-25'+	Best used in group or mass plantings for naturalizing; container stock is safest for transplanting - Transitional *

EVERGREEN TREES

<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
White Fir	N	<i>Abies concolor</i>	60-100' x 25-35'	Do not use for massing due to combustibility. Best in protected areas with ample moisture; can be difficult to transplant.
Bristlecone Pine	N X	<i>Pinus aristata</i>	15-25' x 10-15'	Prefers gravelly soil
Pinyon Pine	N X	<i>Pinus cembroides edulis</i>	15-20' x 10-15'	Requires dry, well-drained conditions - Transitional *
Limber Pine	N X	<i>Pinus flexilis (and varieties)</i>	30'+ x 20'+	Drought and wind tolerant
Austrian Pine	X	<i>Pinus nigra</i>	50-60' x 25-30'	Full and bushy to the ground; elk-damage potential - do not plant on wildlife corridors or golf course frontage - Transitional *
Ponderosa Pine	N X	<i>Pinus ponderosa</i>	50-80' x 25-40'	The signature tree of our pine-oak forest. Loses lower limbs with age; spade dug stock preferred - Transitional *
Scotch Pine	X	<i>Pinus sylvestris</i>	40-60' x 25-30'	Use sparingly; somewhat irregular habitat
Douglas Fir	N	<i>Pseudotsuga menziesii</i>	60-100' x 30'+	Use sparingly - do not use for massing. Needs some moisture

DECIDUOUS SHRUBS

<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Regent Serviceberry		<i>Amelanchier alnifolia</i>	4-5'x 4'or less	Somewhat shade tolerant - Transitional *
Leadplant (Indigobush)	N X D	<i>Amorpha canescens, et al</i>		Good for naturalization near drainages
Red Chokeberry		<i>Aronia arbutifolia</i>	6-10' x 4-6'	
Black Chokeberry		<i>Aronia melanocarpa</i>	3-4' x4'	
Blue Mist Spirea	X D	<i>Caryopteris clandonensis</i>	42" x 42"	Requires pruning of winter die-back; attracts bees
Curlleaf Mountain Mahogany	N X	<i>Cercocarpus ledifolius</i>	10-20' x 10-15'	Character specimen in dry-land plantings - Transitional *
Littleleaf Mountain Mahogany		<i>Cercocarpus intricatus</i>	4-5'x3-4'	Transitional*
Mountain Mahogany	N X D	<i>Cercocarpus montanus</i>	6-12' x 6'	Irregular, often leggy shrub for hot, dry areas - Transitional *
Fernbush	N X	<i>Chamaebatiaria</i>	6' x 4-6'	Dry-land specimen - Transitional *

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

		<i>millefolium</i>		
Baby Blue Rabbitbrush		<i>Chrysothamnus (Ericameria) nauseosus var. nauseosus</i>	16-24"x20-30"	Refer to PlantSelect.org
Dwarf Blue Rabbitbrush	N X	<i>Chrysothamnus nauseosus var.</i>	3' x 3-4'	-Transitional *
Isanti Dogwood	W D	<i>Cornus sericea 'Isanti'</i>	5-6' x 6'+	Dwarf form of red-twig dogwood; shade tolerant - Transitional *
Red-twig Dogwood	N W D	<i>Cornus stolonifera (sericea)</i>	10-12' x 10'	Shade tolerant large shrub for wetter areas; requires renewal pruning - Transitional *
Cranberry Cotoneaster	X D	<i>Cotoneaster apiculatus</i>	2-3' x 4'+	A good substitute for spreading juniper
Cliffrose	N X	<i>Cowania mexicana</i>	6-10' x 6'	
Spanish Gold Broom		<i>Cytisus purgans</i>	3-4'x5-6'	Refer to PlantSelect.org
Carol Mackie Daphne		<i>Daphne x burkwoodii 'Carol Mackie'</i>	3-4'x3-4'	
Bluestem Joint Fir		<i>Ephedra equisetina</i>	4-5"x6-8	Refer to PlantSelect.org
Burning Bush	X	<i>Euonymus alatus (& compacta)</i>	6-10' x 6-8'	Shade tolerant, susceptible to rabbit and/or vole damage
New Mexican Privet	N X	<i>Forestiera neomexicana</i>	10-12' x 6-8'	Upright drought-tolerant screen plant in transition to native dry-land areas
Red Yucca		<i>Hesperaloe parviflora</i>	36-48"x36-48"	Refer to PlantSelect.org
Mountain (Rock) Spirea	N X D	<i>Holodiscus dumosus</i>	4-8' x 4-6'	Shade tolerant, naturalized rock areas
Waxflower	N D	<i>Jamesia americana</i>	4-6' x 3-5'	Part to deep shade
Russian Sage	X D	<i>Perovskia atriplicifolia</i>	4-5' x 4-5'	- Transitional *
Cheyenne Mock Orange		<i>Philadelphus lewisii</i>	6-7'x6-7'	Refer to PlantSelect.org
Mountain Ninebark	N	<i>Physocarpus monogynus</i>	3-4' x 2-3'	Shade tolerant native under pines. Yellow and red leaved hybrids are not permitted - Transitional *
Native Potentilla	N W D	<i>Potentilla fruticosa</i>	2-3' x 3'+	Recurrent yellow flowers; a bit difficult to prune out and keep neat - Transitional *
White Flowering Potentilla 'Abbotswood'	D	<i>Potentilla fruticosa</i>	2' x 3'+	Spreading low variety; full sun for best flowering - Transitional *
Western Sand Cherry	N X	<i>Prunus besseyi</i>	4-6' x 4-6'	Good near water or dry stream bed - Transitional *
Creeping Western Sand Cherry	N X	<i>Prunus besseyi 'Pawnee Buttes'</i>	18" x 4'	A dwarf, ground hugging variety of the above - Transitional *
Smith's Buckthorn		<i>Rhamnus smithii</i>	8-10'x8-10'	
Grow-low Sumac	X D	<i>Rhus aromatica 'Growlow'</i>	18-24" x 4'+	Low spreading habit with glossy green foliage and reddish fall color
Autumn Amber Sumac	D	<i>Rhus trilobata 'Autumn Amber'</i>	10-14"x6-8'	Transitional*
Three-Leaf Sumac	N X D	<i>Rhus trilobata (or aromatica)</i>	5-7' x 5'+	Excellent for screening, massing; very tough - Transitional *

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

Golden Currant	N X D	<i>Ribes aureum</i>	4-6' x 5'	Shade and drought tolerant - Transitional *
Wax Currant	N X D	<i>Ribes cereum</i>	3' x 3'	Dry-land planting and in rocks; very tough - Transitional *
Comanche Gooseberry		<i>Ribes uva-crispa 'Red Jacket'</i>	2-3'x4-5'	Transitional*
Shrub Roses		<i>Rosa ssp</i>	Varies	
Austrian Copper Rose	X	<i>Rosa foetida bicolor</i>	6-8' x 8'+	
Redleaf Rose		<i>Rosa glauca, R. rubrifolia</i>	6-8'x4-6'	Refer to PlantSelect.org
Ruby Voodoo Rose		<i>Rosa 'Ruby Voodoo'</i>	5-6'x4-5'	Refer to PlantSelect.org
Boulder Raspberry	N X	<i>Rubus deliciosus</i>	5-8' x 6'+	Widely arching - Transitional *
Siberian Spirea	D	<i>Sibiraea laevigata</i>	4-5'x6-8"	Refer to PlantSelect.org
Spirea	XD	<i>Spiraea bumalda</i>	2-4' ht	Smaller green-leaved varieties such as 'Forebel', 'Anthony Waterer' and 'Little princess' are permitted
Snowberry (var)	X W D	<i>Symphoricarpus albus</i>	4-5' x 5'+	Arching habit; shade tolerant
Snowberry, Native	N X D	<i>S. occidentalis, S. orbiculatus</i>	2-3' x 4'+	Good in dry shade, under-story to pines - Transitional *
Wayfaring tree Viburnum	X D	<i>Viburnum lantana</i>	10-15' x 8'	Upright, tree-like branching structure
Mohican Viburnum	X D	<i>Viburnum lantana 'Mohican'</i>	8-10' x 8'	Transitional *
Viburnum – Varieties	D	<i>Viburnum</i>	4-10'x4-10'	Refer to PlantSelect.org
Compact Cranberrybush	W	<i>Viburnum opulus compactum</i>	4-5' x 4'	Transitional *
<u>EVERGREEN</u> <u>SHRUBS</u>				
COMMON NAME	NOTES	SCIENTIFIC NAME	HEIGHT/SPREAD	COMMENTS
Panchito Manzanita	X	<i>Arctostaphylos x coloradoensis</i>	10-14"x24-36"	Refer to PlantSelect.org
Oregon Grape Holly	X	<i>Mahonia aquifolia compactum</i>	2-4' ht	Shade and acid soil preferred
Mountain Lover	N	<i>Paxistima myrsinites</i>	12-18" ht.	Shade and acid soil preferred
Dwarf Pinon Pine		<i>Pinus edulis</i>	24-30"x24-30"	Refer to PlantSelect.org
Blue Jazz Pinon Pine		<i>Pinus monophylla 'Blue Jazz'</i>	24"x24"	Refer to PlantSelect.org
Mugo Pine (varieties)	X	<i>Pinus mugo (pumilio)</i>	1-8' x 6'+	Can be used in rocks and for an evergreen screen of utility boxes
Yucca, Soapweed	N X	<i>Yucca glauca, Y. baccata</i>	2-3' ht.	Drier sites, full sun; - Transitional *

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

<u>PERENNIALS</u> <u>AND</u> <u>GROUNDCOVERS</u>				
<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Yarrow	X D	<i>Achillea spp.</i>		Very tough. Full sun
Hyssop-Varieties	X	<i>Agastache</i>	16-18"x12-16"	Good in dry-land transitions
Colorado Desert Blue Star		<i>Amsonia jonesii</i>	10-14"x12-16"	Refer to PlantSelect.org
Cape Forget-Me-Not		<i>Anchusa capensis</i>	12-16"x4-8"	Refer to PlantSelect.org
Silky Rick Jasmine		<i>Androsace sarmentosa</i>	2-4"x8-12"	Refer to PlantSelect.org
Fall Anemone	N D	<i>Anemone x hybrida</i>		
Pussytoes	X	<i>Antennaria neglecta</i>		
Filigree Daisy		<i>Anthemis marschalliana</i>	4-6"x18-24"	Refer to PlantSelect.org
Columbine - Varieties	S	<i>Aquilegia spp.</i>	28-32"x16-18"	Shaded woodland sites preferred
Kinnikinnick	N X D	<i>Arctostaphylos uva-ursi</i>		
Desert Moss		<i>Arenaria "Wallowa Mountain"</i>	½-1"x10-14"	Refer to PlantSelect.org
Artemisia – Varieties Fringed Sage	N X D	<i>Artemisia frigida</i>	8-12"x18-24"	
Butterfly Weed	N X	<i>Asclepia tuberosa</i>		Wetter areas only
Alpine Aster	N	<i>Aster alpinus</i>		
Chocolate Flower	X	<i>Berlandiera lyrata</i>		Refer to PlantSelect.org
Poppy Mallow (Winecups)	N X	<i>Callirhoe involucrata</i>	6-8"x24-30"	Subject to foraging by rabbits
Prairie Lode Sundrops		<i>Calylophus serrulatus</i> 'Prairie Lode'	6-8"x12-16"	Refer to PlantSelect.org
Harebell/Bell Flower	S	<i>Campanula ssp</i>		
Jupiter's Beard	X	<i>Centranthus rubur</i>		
Snow-in-Summer	X D	<i>Cerastium tomentosum</i>		
Mongolian Bells Clematis		<i>Clematis integrifolia</i> 'PSHarlan'	10-14"x14-18"	Refer to PlantSelect.org
Scott's sugarbowls		<i>Clematis scottii</i>	8-14"x12-18"	Refer to PlantSelect.org
Tickseed	X	<i>Coreopsis</i>		
Curly leaf sea kale		<i>Crambe maritima</i>	18-24"x24-30"	Refer to PlantSelect.org
Prairie Clover	X	<i>Dalea purpurea</i>		

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

Ice Plant - Varieties	X	<i>Delosperma</i>		Refer to PlantSelect.org
Larkspur/Delphinium	X D	<i>Delphinium ssp</i>		Toxic
Dianthus - Varieties	N X	<i>Dianthus</i>	14-20"x12-16"	Refer to PlantSelect.org
Coral Canyon Twinspur	S	<i>Diascia intergerrima</i>	14-16"x10-14"	Refer to PlantSelect.org
Foxglove - Varieties	S D	<i>Digitalis ssp</i>	12-14"x12-14"	Toxic
Yellow Stardust Draba		<i>Draba rigida</i>	2-3"x6-10"	Refer to PlantSelect.org
Coneflower - Varieties	N X D	<i>Echinacea</i>	18-24"x16-18"	Refer to PlantSelect.org
Red Feathers		<i>Echium russicum (compact form)</i>	12-16"x6-10"	Refer to PlantSelect.org
Engelmann's Daisy		<i>Engelmannia peristenia</i>	28-30"x14-18"	Refer to PlantSelect.org
Alpine Willowherb	X	<i>Epilobium fleischeri</i>	16-20"x8-12"	Refer to PlantSelect.org
Fleabane Daisy	N X	<i>Erigeron compositus</i>		
Aspen Daisy	N X	<i>Erigeron speciosus</i>		
Sulfur Flower	X	<i>Eriogonum umbellatum</i>		Refer to PlantSelect.org
Kannah Creek Buckwheat		<i>Eriogonum umbellatum var. aureum 'Psdawns'</i>	10-14"x18-24"	Refer to PlantSelect.org
Snow Mesa Buckwheat		<i>Eriogonum Wrightii var. wrightii</i>	16-20"x18-24"	Refer to PlantSelect.org
Golden Storksbill		<i>Erodium chrysanthum</i>	8-10"x10-25"	Refer to PlantSelect.org
Purple-leaf Wintercreeper	S	<i>Euonymus fortunei 'Coloratus'</i>		
Wild Strawberry	S	<i>Fragaria vesca</i>		
Native Blanketflower	N X	<i>Gaillardia aristata</i>		
Blanketflower	X	<i>Gaillardia grandiflora var.</i>		
Gazania - Varieties	X	<i>Gazania</i>	4-6"x10-12"	Refer to PlantSelect.org
Cranesbill - Varieties	X	<i>Geranium ssp.</i>	4-8"x8-12"	Refer to PlantSelect.org
Wild Geranium	N X	<i>Geranium viscosissimum</i>		
Whirling Butterflies	X	<i>Guara lindheimeri</i>		
Sunrose	X	<i>Helianthemum ssp.</i>		
Maximilian Sunflower	X	<i>Helianthus maxmilliani</i>		
Daylilies	X	<i>Hemerocallis ssp.</i>		Accent only; not in masses
Goldhill Golden-Aster		<i>Heterotheca Jonesii x Villosa 'Goldhill'</i>	2-4"x6-10"	Refer to PlantSelect.org
Sandia Coral Bells		<i>Heuchera pulchella</i>	4-6"x6-10"	Refer to PlantSelect.org
Snow Angel Coral Bells		<i>Heuchera sanguinea 'Snow Angel'</i>	6-10"x8-10"	Refer to PlantSelect.org
Dwarf Beach-Head Iris	D	<i>Iris hookeri, I. setosa ssp. canadensis</i>	8-12"x8-12"	Refer to PlantSelect.org

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

Blue Flag Iris	N X D	<i>Iris missouriensis</i>		Wetter areas only
Regal Torchlily		<i>Kniphofia caulescens</i>	36-40"x24-30"	Refer to PlantSelect.org
Lavender	X D	<i>Lavendula Angustifolia</i>		
Alaska Daisy	X	<i>Leucanthemum x superbum</i>		
Gayfeather	X	<i>Liatris spp.</i>		
Blue Flax - Varieties	N X	<i>Linum</i>		Refer to PlantSelect.org
Lupine	S	<i>Lupinus spp.</i>		Toxic
Creeping Oregon Grape Holly	N X	<i>Mahonia repens</i>		
Silverheels Horehound		<i>Marrubium rotundifolium</i>	2-4"x24-36"	Refer to PlantSelect.org
Desert 4 o'clock	X	<i>Mirabilis multiflora</i>		
Bee-Balm	X	<i>Monarda spp.</i>		
Hummingbird Trumpet Mint		<i>Monardella macrantha</i> 'Marian Sampson'	4-6"x8-12"	Refer to PlantSelect.org
Catmint - Varieties	X	<i>Nepeta x faassenii</i>		
Evening Primrose - Varieties	X	<i>Oenothera spp.</i>		
Hopflower Oregano		<i>Origanum libanoticum</i>	10-12"x18-24"	Refer to PlantSelect.org
African Daisy	X	<i>Osteospermum</i>		
Avalanche White Sun Daisy		<i>Osteospermum</i> 'Avalanche'	8-12"x24-36"	Refer to PlantSelect.org
Purple Mountain Sun Daisy		<i>Osteospermum barberiae</i> var. <i>compactum</i>	10-12"x12-14"	Refer to PlantSelect.org
Lavender Mist Sun Daisy		<i>Osteospermum sp.</i>	12-14"x14-18"	Refer to PlantSelect.org
Mountain Lover		<i>Paxistima canbyi</i>	8-12"x15-20"	Refer to PlantSelect.org
Virginia creeper	S	<i>Parthenocissus</i> <i>quinquefolia</i>		
Penstemon - Varieties	X D	<i>Penstemon spp.</i>		Refer to PlantSelect.org
Purple Prairie Clover	X	<i>Petalostemum purpureum</i>		
Cashmere Sage	D	<i>Phlomis cashmeriana</i>	36-60"x18-30"	Refer to PlantSelect.org
Snowmass Phlox		<i>Phlox bifida</i>	4-8"x14-18"	Refer to PlantSelect.org
Creeping Phlox	S	<i>Phlox subulata</i>		
Oxlip Primrose		<i>Primula elatior</i>	10-14"x12-16"	Refer to PlantSelect.org
Moroccan pincushion flower		<i>Pterocephalus depressus</i>	3"x10-15"	Refer to PlantSelect.org
Pasque Flower	N X	<i>Pulsatilla patens</i>		
Upright Prairie Coneflower	N X D	<i>Ratibida columnifera</i>		
Black-eyed Susan/ Denver Daisy	X D	<i>Rudbeckia</i>	18-24"x18-24"	Refer to PlantSelect.org
Salvia - Varieties	X D	<i>Salvia spp.</i>		Refer to PlantSelect.org
Rock Soapwort	X	<i>Saponaria ocymoides</i> 'splendens'		

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

Purple Winter Savory	X	<i>Satureja montana</i>	4-6"x14-18"	Refer to PlantSelect.org
Pincushion Flower	X	<i>Scabiosa ssp.</i>		
Red Birds in a Tree		<i>Scrophularia macrantha</i>	24-36"x16-20"	Refer to PlantSelect.org
Smoky Hills Skullcap		<i>Scutellaria resinosa</i>	8-10"x10-14"	Refer to PlantSelect.org
Cherry Skullcap		<i>Scutellaria syffrutescens</i>	6-8"x10-14"	Refer to PlantSelect.org
Sedum	X	<i>Sedum spp.</i>		
Moon Carrot		<i>Seseli gummiiferum</i>	28-32"x10-14"	Refer to PlantSelect.org
Dalmation Daisy		<i>Tanacetum cinerariifolium</i>		Refer to PlantSelect.org
Partridge Feather		<i>Tanacetum densum ssp. Amani</i>	4-6"x18-24"	Refer to PlantSelect.org
Navajo Tea	N X	<i>Thelesperma mega potanicum</i>		
Thyme	X D	<i>Thymus</i>		
Tulips	S	<i>Tulipa ssp.</i>		
Verbena - Varieties	N X	<i>Verbena</i>	4-6"x16-20"	Refer to PlantSelect.org
Veronica – Varieties	S	<i>Vernonica</i>	1-4"x16-24"	Refer to PlantSelect.org
Violet/Pansy – Varieties		<i>Viola</i>	6-10"x10-12"	Refer to PlantSelect.org
Periwinkle	S D	<i>Vinca minor</i>		
Orange Carpet Hummingbird Trumpet	D	<i>Zauschneria garrettii</i>	6-8"x18-24"	Refer to PlantSelect.org
Golden Flowered Prairie Zinnia	D	<i>Zinnia grandiflora</i>	8-10"x18-30"	Refer to PlantSelect.org
<u>ORNAMENTAL GRASSES</u>				
<i>COMMON NAME</i>	<i>NOTES</i>	<i>SCIENTIFIC NAME</i>	<i>HEIGHT/SPREAD</i>	<i>COMMENTS</i>
Windwalker big bluestem		<i>Andropogon gerardii</i>	60-72"x18-24"	Refer to PlantSelect.org
Sideoats Grama	N X	<i>Bouteloua curtipendula</i>	10-18"	
Blue Grama	N X	<i>Bouteloua gracilis</i>	4-8"	Refer to PlantSelect.org
Blonde Ambition Gramma Grass		<i>Bouteloua gracilis 'Blonde Ambition'</i>	32-40"x20-24"	Refer to PlantSelect.org
Feather Reed Grass	X D	<i>Calamagrostis acutifolia</i>	3-5'	Use sparingly, do not mass

NOTES: **N** = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**

		<i>‘Karl Foersters’</i>		
Korean Feather Reed Grass		<i>Calamagrostis brachytricha</i>	32-40”x20-24”	Refer to PlantSelect.org

Indian Rice Grass	N X	<i>Oryzopsis hymenoides</i>	18-24”	
Fountain Grass	X D	<i>Pennisetum spp.</i>	1-3’	Refer to PlantSelect.org
Little Bluestem	N X	<i>Schizachyrium scoparium</i>	2-3’	Refer to PlantSelect.org
Indian Grass	N	<i>Sorghastrum nutans</i>	4-5’	Adapts to wet areas
Prairie Cordgrass		<i>Spartina pectinata</i>	20-30”x20-30”	Refer to PlantSelect.org
Giant Sacaton		<i>Sporobolus wrightii</i>	620-72”x48-60”	Refer to PlantSelect.org
Needle and Thread	N X	<i>Stipa comata</i>	2-3’	
<u>VINES</u>				
COMMON NAME		SCIENTIFIC NAME	HEIGHT/SPREAD	COMMENTS
Trumpet Vine	X	<i>Campsis radicans</i>		Vigorous climber
Clematis	X	<i>Clematis ssp.</i>		Requires improved soil in a cool location, frequent watering & fertilizing
Ruby Moon Hyacinth Bean		<i>Dolichos laglab ‘Ruby Moon’</i>	6-8’x3-5’	Refer to PlantSelect.org
English Ivy	S	<i>Hedera helix</i>		Part to deep shade, acid soil
Engelmann Ivy	X	<i>Parthenocissus quinquefolia engelmanni</i>		Vigorous climber in full sun or shade
St. Theresa Seedless Grape		<i>Vitis x ‘St. Theresa Seedless’</i>	15-20’x3-8’	Refer to PlantSelect.org

NOTES: N = refers to species native to the Rockies. **X** = xeric, exhibiting better drought tolerance. **W** = will tolerate wetter sites. **D** = Deer Resistant
S = Does well in arid climates but may perform better in shade. * **Suitable along streets and other public views.**
